Summary

Product Leader | Product Strategist with 10+ years of experience driving **digital transformation** across **HealthTech and e-commerce**. Proven ability to **build and scale ecosystem-wide platforms**—from patient/provider apps and centralized appointments (**~4.0M bookings/month**) to **diagnostics, pharma e-commerce, at-home services, and command centres**. Blend of **deep healthcare expertise** (clinical operations, standards, regulations) and **strong technical know-how** (APIs, Cloud, frontend/backend, databases, GenAI). Skilled at solving **industry-level challenges** (ID management, health record insights) and leading **AI-driven innovation** (bots, automation, outcome management tools) and turning complex business problems into productized, scalable solutions that deliver measurable growth, efficiency, and end user impact.

Selected Impact

- **Ecosystem Builder**: Built patient- and doctor-facing apps integrated with a centralized **appointment management platform** (~4.0M bookings/month across multiple service categories). Extended the vision into an **interconnected product pipeline** including a **Digital Command Centre, diagnostics e-commerce, pharma e-commerce, and at-home care services (ECG, X-ray, step-down ICU)**.
- **Digital Transformation: Brought diagnostics, pharma e-commerce, and at-home care services** into the digital product domain, enabling end-to-end online booking, delivery, and monitoring. Contributed to **20% YoY growth** in diagnostics revenue via digital adoption and product-led improvements.
- **Communication Overhaul:** Led **organization-wide patient communication strategy**, introducing WhatsApp-first engagement (SMS fallback) and building intelligent bots for at-home services → resulted in +10% bookings and higher efficiency via CRM-led interventions.
- **Industry Problem-Solving**: Solved long-standing challenges like **duplicate patient IDs** (via merge-ID framework) and **intelligent health record insights** (auto-interpretation of medico-technical data), improving care consistency and compliance.
- **Clinical Innovation:** Shipped **Patient Reported Outcome Management** and **Continuous Professional Development** tools for clinicians, bridging technology and clinical practice.

Professional Experience

Associate General Manager – Product (Senior Product Manager / Product Leader)

Max Healthcare | Gurugram, India | Mar 2022 – Present

- **Led product strategy** across payer & provider ecosystems, scaling appointment platform to ~4.0M bookings/month across multiple service categories.
- Conceived the **Digital Command Centre** and clinical efficiency tools, extending digital vision beyond core applications.
- Brought **diagnostics, pharma e-commerce, and at-home care services** (ECG, X-ray, Step-down ICU) into the digital product domain, complementing hospital care with online-first journeys and extending services to patient homes.
- Enabled **20% YoY revenue growth** in diagnostics through digital adoption, product optimizations, and funnel improvements.
- Rolled out **Patient Reported Outcome Management** and **Continued Learning & Development tools**, improving engagement and clinical quality.
- Led organization-wide **communication overhaul** by introducing WhatsApp-first channels with SMS fallback; designed intelligent communication bots for payer/provider ecosystems → drove **+10% bookings** and **improved efficiency & CSAT** via CRM interventions.
- Solved systemic challenges: **implemented Merge-ID framework** to eliminate duplicate patient records; introduced **intelligent insights & auto-interpretation** for health records, bridging medico-technical gaps.
- Drove **roadmap planning and OKRs**; partnered with **cross-functional squads (Engineering, Design, Data, Compliance, Infra & Security, Vendors).**

Manager – Growth & Expansion (Product Strategy / Marketplace Ops)

Swiggy Instamart | Bengaluru, India | Aug 2021 – Feb 2022

- Spearheaded **hyperlocal expansion**, launching 45+ locations in 5+ cities with a standardized go-live playbook.
- Improved TAT by 30% and lifted customer NPS by +11 points through product and ops enhancements.
- Partnered with supply chain & ops to design product bridges that improved fill rates and reduced order drop-offs.

Manager – Product & Business (Product Manager – OTC / Marketplace Growth)

PharmEasy / Medlife / Myra | Bengaluru, India | Oct 2018 – Aug 2021

- Built **OTC data platform** integrating forecasting, procurement, and operations with downstream systems.
- **Re-architected search, recommendations, and taxonomy**, improving discovery quality and boosting acceptance rates.
- Piloted polygon-level expansion, achieving 3× DAU growth in new catchments via targeted marketing + product readiness.
- **Collaborated with vendors and marketing** to ensure scalable, compliant rollouts in high-growth markets.

Senior Product Executive – Content & SaaS EMR (Product Manager – HealthTech)

Practo | Bengaluru, India | Aug 2015 – Oct 2018

- Designed **EMR modules** and **centralized clinical content management**; scaled platform to ~5M MAUs.
- Managed **large-scale medical data operations** in compliance with global health standards.
- Partnered with doctors, engineering, and vendors to implement **SaaS EMR** in hospitals and clinics.

Education

MBA – Marketing & Operations | AIMIT, Bangalore University | 2015

Bachelor of Pharmaceutical Sciences | College of Pharmaceutical Sciences, GMC, Trivandrum | 2012

Skills & Tools

Product Management & Strategy

- **Product Lifecycle** (Discovery → Roadmap → Build → Scale → Iterate)
- **Platformization & Ecosystem** Vision | **Growth & Experimentation** (A/B, cohorts, funnel optimization)
- **Agile / Scrum** | OKRs | **Stakeholder & Vendor Management**

Technology Know-How/Working Knowledge

- **Frontend:** React Native, Flutter, Kotlin, Swift UI
- **Backend & DB:** Node.js, PostgresSQL, MySQL, MongoDB
- **APIs & Integration:** REST, GraphQL, API design & monitoring, API Testing
- **Cloud & DevOps:** AWS, CI/CD pipelines, Git and Git Hub, monitoring (CloudWatch, Athena, Open Search, Grafana)
- **Gen AI & LLMs:** Prompt engineering, evaluation frameworks, fine-tuning, adoption playbooks

Healthcare Domain Expertise

- **EMR, Patient Journeys, Clinical Ops, Patient Reported Outcomes**, Hospital Operations, Pharma Manufacturing and Compliance, Supply chain and Optimizations
- **Regulations & Standards**: HIPAA, GDPR, NABH, LOINC, SNOMED, ICD-10/11, UMLS, ATC

Analytics & Collaboration

- **Tools:** Mixpanel, CleverTap, Metabase, Retool, AppsFlyer, Amazon Quicksight, DBeaver, Play store & Appstore release and analytics, Figma, Whimsical, Balsamiq, AI tools for quick prototyping
- **Collaboration:** Jira, Confluence, GitHub

Certifications / Learning

- AWS Cloud Practitioner (Essential) | GenAI Product Management (coursework) |Product Management (Product School)

Languages

English (Fluent) | **Hindi** (Native) | **Malayalam** (Proficient) | **Kannada** (Intermediate) | **Bengali** (Basic)
